

## Rate Calculation

The rate calculation sheets makes it easy to calculate charges for my services in 5-minute increments. Here's how it works.

For example, if we charge \$30/hr for word processing and it takes us 80 minutes to do the work, then we charge \$40. If we charge \$40/hr for advanced word processing and it takes us 80 minutes to do the work, then we charge \$53.33.

Our minimum amount for any work is \$35 even if we just change a phone number or address on a resume.
